

April 21, 2025 – Union President Communicates Superintendent's Refusal to Provide Recommendation Letters

On April 21, 2025, I received a phone call from the Union President, who informed me that she had spoken directly with Superintendent Ken Sanarich regarding my previously requested letters of recommendation. Despite prior communication from the union lawyer indicating that the superintendent had agreed to provide such letters if I submitted a resignation, the union president relayed that Mr. Sanarich would no longer be able to write a recommendation, nor would other administrators, because they claimed they “didn’t know me.”

This reversal occurred after my resignation was submitted and was inconsistent with earlier verbal agreements. It further undermines the credibility of the district's prior commitment and reinforces my position that my resignation was not truly voluntary, but rather the result of manipulated conditions and broken assurances.
